OCT 26 2015

Dear Interested Party:

The Bureau of Land Management (BLM) Agua Fria National Monument has prepared an Environmental Assessment (EA) to analyze the potential impacts of proposed management changes to the Indian Creek riparian area found within the Box Bar livestock grazing allotment.

A 30-day scoping period for the project was initiated in spring of 2013; comments about the project were received from several entities. The EA (along with scoping comments and BLM responses), a Finding of No Significant Impact (FONSI), and a Proposed Decision may be viewed or downloaded from the BLM Land Use Planning and NEPA Register Page under the following link:

[https://www.blm.gov/epl-front-office/eplanning/nepa/nepa\\_register.do](https://www.blm.gov/epl-front-office/eplanning/nepa/nepa_register.do)

To navigate to the project, click on the "Text Search" tab above the map, scroll down and select "Arizona" from the "State(s)" list, which will populate the "Office(s)" list, then select "AZ – Agua Fria NMON." Under "Document Type(s)," select "EA" and then click the "Search" button on the left side of the screen. This will take you to a list of projects; find and select this project (DOI-BLM-AZ-P030-2013-0001-EA) to display the project web site using the link on the left.

If you have questions or comments about this project, please contact Casey Addy, Natural Resource Specialist, at (623) 580-5621 or [caddy@blm.gov](mailto:caddy@blm.gov).

Sincerely,

D. Remington Hawes  
Field Manager  
Hassayampa Field Office
